

Dear sirs,

This is in response of the proposed weakening of the "do not call" list for New Jersey. For the past year it has been wonderful to sit down at dinner time and have quality family time to discuss the days events with my children, without being interrupted by unwanted phone calls. In all of our busy lives we lead, it is very important to have some quiet time with our family in the privacy of our own homes. I feel by weakening this law would interfere with this wonderful time spent with our families.
